

SECTION D

INDEX TO VOLUME 24

Authors

- Cowan, I. McT.**—Parasites, diseases, injuries, and anomalies of the Columbian black-tailed deer, *Odocoileus hemionus columbianus* (Richardson), in British Columbia, 71.
- Fraser, F. C.**—
The expression and interaction of hereditary factors producing hypotrichosis in the mouse: histology and experimental results, 10.
See also Steinberg, A. G.
- Glenny, F. H.**—A systematic study of the main arteries in the region of the heart—Aves XI. Tinamiformes—With some notes on their apparent relationship with the Galliformes, 31.
- Hayes, F. R.**—See Hollett, A.
- Hollett, A. and Hayes, F. R.**—Protein and fat of the salmon egg as sources of energy for the developing embryo, 39.
- Miller, M. J.**—The cercaria of *Apophallus brevis*, 27.
- Miller, R. B. and Watkins, H. B.**—An experiment in the control of the cestode, *Trieno-phorus crassus* Forel, 175.
- Shortt, T. M.**—See Snyder, L. L.
- Snyder, L. L. and Shortt, T. M.**—Variation in *Bonasa umbellus*, with particular reference to the species in Canada east of the Rockies, 118.
- Steinberg, A. G. and Fraser, F. C.**—The expression and interaction of hereditary factors affecting hair growth in mice: external observations, 1.
- Strickland, E. H.**—An annotated list of the Diptera (flies) of Alberta. Additions and corrections, 157.
- Watkins, H. B.**—See Miller, R. B.
- Wellington, W. G.**—
The effects of variations in atmospheric pressure upon insects, 51.
Some reactions of muscoid Diptera to changes in atmospheric pressure, 105.
- Wilby, G. V.**—Fishes collected by the Wm. J. Stewart in British Columbia waters during 1934 and 1935, 134.

SECTION D

INDEX TO VOLUME 24

Subjects

- Arteries**, See under Aves (Tinamiformes).
- Apophallus brevis**, Cercaria of, 27.
- Atmospheric pressure**, See Pressure.
- Aves**
Bonasa umbellus, Variation in, with particular reference to the species in Canada east of the Rockies, 118.
Galliformes, Phylogenetic relationships of Tinamiformes with, 31.
Tinamiformes
Arteries in the region of the heart of, 31.
Phylogenetic relationships with the Galliformes, 31.
- Birds**, See Aves.
- Blood vessels**, See Arteries (under Aves (Tinamiformes)).
- Bonasa umbellus**, See under Aves.
- Cercaria** of Apophallus brevis, 27.
- Cestodes**, An experiment in the control of Triaenophorus crassus, 175.
- Deer**, Columbian black-tailed, See Odocoileus hemionus columbianus.
- Diptera**, See under Insects.
- Diseases** of the black-tailed deer, Odocoileus hemionus columbianus, in British Columbia, 71.
- Egg**, See Fish (Salmon).
- Embryo**, See Fish (Salmon).
- Energy**, See Fish (Salmon).
- Fat**, See Fish (Salmon).
- Fish**
Fishes collected by the Wm. J. Stewart in British Columbia waters in 1934 and 1935, 134.
Salmon, Protein and fat of the egg of, as sources of energy for the embryo, 39.
- Flies**, See Insects (Diptera).
- Grouse, Ruffed**, See Aves (Bonasa umbellus).
- Growth** of hair in mice, See Mice.
- Hair**, Growth of, in mice, See Mice.
- Heart**, Arteries in the region of, See under Aves (Tinamiformes).
- Heredity**, See Mice.
- Hypotrichosis** in mice, See Mice.
- Insects**
Diptera
Muscoïd, Reactions of, to changes in atmospheric pressure, 105.
of Alberta, Additions and corrections to a list of, 157.
Effects of variations in atmospheric pressure upon, 51.
- Mice**
Expression and interaction of hereditary factors affecting hair growth in mice: external observations, 1.
Expression and interaction of hereditary factors producing hypotrichosis in the mouse: histology and experimental results, 10.
- Odocoileus hemionus columbianus** (Columbian black-tailed deer), Parasites, diseases, injuries, and anomalies of, in British Columbia, 71.
- Parasites**
Parasites of the black-tailed deer, Odocoileus hemionus columbianus, in British Columbia, 71.
See also Cestodes and Trematodes.
- Pressure**, Atmospheric
Effect of variations in, upon insects, 51.
Some reactions of muscoïd Diptera to changes in, 105.
- Protein**, See Fish (Salmon).
- Salmon**, See under Fish.
- Tapeworms**, See Cestodes.
- Trematodes**, Cercaria of Apophallus brevis, 27.
- Triaenophorus crassus**, See Cestodes.
